

Mid-Course Project

Haidee Cardy

Title: Top Dog

Idea: Top dog is a website based around our family dogs.

Minimum Viable Product

Top dog has an intro page to introduce the dogs and their personalities. Their information will reveal on a toggle of a button.

Further Development

I am working on adding a game page to this based on rock, paper, scissors.

Fact-files can be added to include more information about the breed of the dogs as they are all different.
